SEYMOUR, INDIANA. TUESDAY FEBRUARY 18, 1902

PRICE TWO CENTS

SYRUP OF FIGS

NEVER IMITATED QUALITY.
An Excellent Combination.
The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinal in their form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, and the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the company printed on the front of every package.

BLIZZARD BLOWN

New York In the Grasp of
the Fiercest Storm In
Years.

TRAFFIC IS SUSPENDED

Business In Gotham Brought to a
Standstill By Accumulated
Drifts of Snow.

From Philadelphia to Boston the
Storm King Held Undisputed
Sway.

New York, Feb. 18.—New York city has borne the brunt of the fiercest snowstorm that has struck this section of the country since the great snow of 1888. Beginning soon after midnight yesterday morning, the storm increased rapidly until by daybreak the whole city was completely snowed under. The rising force of the gale piled the snow in great drifts that for a time almost suspended traffic, except in the main thoroughfares, where the car tracks were only kept open by the constant use of snowplows and sweepers. Not until near sundown did the fall of snow cease. The fall was slightly more than ten inches.

Communication between Manhattan and Brooklyn was subject to long delay. The ferry boats with difficulty made trips across the ice-choked rivers, and the work of tugboats, lighters and shipping generally, was almost at a standstill. So heavy was the snowfall that the loading of vessels was stopped, it being impossible to keep the hatches open.

There was considerable delay in the arrival of mails. The Chicago mail due at 4:45 p. m. did not get in until 7:45, and the Washington mail was an hour and a quarter late. The local deliveries of mail were hampered by the difficulty of driving the wagons through the snow-encumbered streets. All outgoing mails were closed from 30 minutes to an hour before the usual time. Mails on the New York Central were from two to three hours late and all mail service between this city and points on Long Island was practically suspended. The trains on all the lines terminating in Jersey City were hours behind time during the morning, but toward evening the schedules were more nearly maintained. On the New York Central through trains were being moved nearly on time by taking off many of the local trains.

The congestion of traffic on the Manhattan streetcar lines was severe during the morning, when many of the avenues were blocked with long lines of stalled cars. On Broadway wheel traffic was confined to the narrow lanes between high snow-hills, and along these cabs, trucks and cars crawled at a snail's pace. From other thoroughfares truck traffic disappeared almost entirely.

In the shopping district the blockade was so complete that several of the great department stores closed at 4 o'clock. Four thousand men were set to work to clear the streets of Manhattan early in the afternoon. Of these half were engaged in opening crosswalks, while 2,000 men and 300 trucks were employed to work all night clearing the main streets.

The conditions of traffic were in every respect worse than in the great blizzard of 1888. The fleet of warships lying off Quarantine to await the arrival of Prince Henry was for hours cut off by floating ice from communication with the shore. Forty marines who put off to the ships in boats from Staten Island, were compelled to put back and return to the navy yard.

The Storm At Boston.
Boston, Feb. 18.—After an unprecedented stretch of clear weather dating back to Candemans day, New England was blanketed yesterday with a foot of wet snow and swept by a northeast gale. This onslaught of the elements impeded traffic and carried down the telegraph and telephone wires, so that many important points were cut off. Fortunately there was not a large amount of shipping off the coast, and no marine disaster has been reported. The storm center was directly over Boston at 8 o'clock last night, with the unusually low barometer of 28.78, which is nearly the record at this station.

It Reaches Philadelphia.
Philadelphia, Feb. 18.—The heavy snowstorm which began in this section at 10 o'clock Sunday night, ceased at 5 o'clock last evening, the fall of snow being the heaviest in three years. The greatest fall of snow occurred at Atlantic City, which was the center of the storm. The weather bureau there reports that 17 inches fell. In this city 11 inches of snow were recorded.

Big Georgian Visits Parliament.
London, Feb. 18.—A sensation was caused in parliament yesterday by the appearance of an American visitor from Georgia named J. F. Skinner, who stands seven feet seven inches high. Sir Howard Vincent, M. P., escorted the giant through both houses.

A King's Illness.
Brussels, Feb. 18.—King Leopold is confined to his apartments with throat trouble and his doctors have enjoined strict precautions.

DEWEY'S REGRETS

Admiral of the Navy Declines Invitation to Meet Prince Henry.
Palm Beach, Fla., Feb. 18.—Admiral Dewey received the following dispatch from Washington yesterday:
"Will you dine with me on Feb. 23 at 7:30 p. m., to have the honor to

ADMIRAL DEWEY, THE GERMAN EM-BASSADOR.

meet his royal highness, Prince Henry of Prussia?"
HOLLEBACH.
Admiral Dewey replied as follows:
"I regret exceedingly not to accept your invitation to dine and have the honor of again meeting his royal highness, Prince Henry of Prussia, but Mrs. Dewey is too ill for me to leave her."
GEORGE DEWEY,
"Admiral of the Navy."

Hobson's Disability.

Washington, Feb. 18.—The president yesterday sent to the senate a message recommending the retirement of Naval Constructor Richmond P. Hobson, and in accordance with this recommendation, Senator Gallinger immediately introduced a bill providing for Mr. Hobson's transfer to the retired list, for disability incurred in line of duty. Hobson's continued eye affection is the cause of his disability.

Will Have to Answer.

Belleville, Ills., Feb. 18.—The St. Clair grand jury has returned indictments against three suspects in the St. Louis bank robbery case. The bills, which charge burglary and larceny, are against Charles Meyers, Sylvester Savignac and John Harrington. Meyers and Savignac are in jail here, and it is believed that Harrington is under surveillance.

A Boy and a Gun.

St. Louis, Feb. 18.—Fretwell Shock, aged 10 years, has been held responsible by the coroner's jury for the death of 16-year-old William Ledger, who was shot and killed Friday night. The boys were members of rival "gangs." Young Shock said he fired in self-defense at another boy and hit Ledger by mistake. Both belong to respectable families.

The Officers Upheld.

New York, Feb. 18.—The first annual meeting of the United States Steel corporation was held yesterday in Hoboken, N. J. The annual report made several weeks ago was presented. All acts of the board of directors, the executive committee and finance committee since the organization of the company on Feb. 25, 1901, were ratified.

Mine Workers In Convention.

Peoria, Ills., Feb. 18.—The sixth annual convention of the Mine Workers' of Illinois met here today. There are about 1,300 delegates present. On Tuesday of next week the Illinois operators will meet here and a joint conference will be held to agree upon the scale for the next year.

Ruling of the Court.

Butler, Mo., Feb. 18.—Judge W. W. Graves in the circuit court yesterday held the whisky tax law passed by the last general assembly to be unconstitutional. This is the act that provides for the collection of a tax of 10 cents a gallon on all whisky sold in the state.

Minnesota Means Business.

St. Paul, Feb. 18.—With only one negative vote the state senate yesterday afternoon passed the bill appropriating \$25,000 to pay the expenses of the legal contest against the so-called merger of the Northern Pacific and Great Northern railways.

TERSE TELEGRAMS

The House by unanimous consent repealed the war revenue tax act.

The senate has passed the bill providing for a permanent census bureau.

Thomas Bangs, of Putnam county, Ky., aged sixty, cracked himself in his room and killed himself.

Crackmen operating in offices in the When building at Indianapolis secured nearly \$100 and left no clue.

At least 2,000 people perished in the town of Siamka, Russia, which was destroyed by earthquake.

A light to reign thirty-six sections of land in Indiana and Ohio has been begun by the Miami Indians.

Five men blew the safe of the street railway office at Northampton, Mass., securing \$300 in cash and escaping.

Assunção Esquivel obtained a majority of the electoral votes in the election for the President of Costa Rica.

The senate has ratified the treaty with Denmark for the cession of the Danish West Indies to the United States.

Yi Yang Yu, the Chinese Minister to Russia, formerly Chinese minister at Washington is dead at St. Petersburg.

The American Association will erect a church on the spot where the notorious "quarter horse" stood near Middleboro.

Mrs. Carrie Chapman Catt was re-elected president of the National Woman's Suffrage Association for the ensuing year.

Two masked men at Clinton, Ia., held up twelve gamblers in Flanagan's establishment securing \$3,000 worth of money and jewels.

A QUIET FINISH

What Promised An Exciting
Debate Ended By Unani-
mous Consent.

WAR TAXES WILL STOP

House Repeals the War Tax Re-
venue Act, Every Vote Being Cast
In the Affirmative.

Danish West Indies Treaty Ratified
and Permanent Census Office
Created In Senate.

Washington, Feb. 18.—The unexpected happened in the house yesterday when the bill to repeal the war revenue taxes was passed unanimously without a word of debate. This action was the outcome of a challenge thrown down by Mr. Richardson of Tennessee, the minority leader, after the adoption by a strict party vote of a special order for the consideration of the bill which permitted debate upon it until 4 o'clock this afternoon, but cut off all opportunity to offer amendments except such as had been agreed upon by the ways and means committee. The adoption of the rule had been preceded by a stormy debate, in the course of which the Democrats protested against the application of the "gag" which Mr. Hay of Virginia charged was meant to prevent a free expression, not only by the Democrats, but by some of the Republicans, attention being especially directed toward Mr. Babcock of Wisconsin, the father of the bill, to amend the steel schedule of the present tariff law. They also charged that such a method of procedure was minimizing the influence of the house and making it simply a machine to register the decree of the few men in control. Mr. Babcock said that he supported the program on the ground that the issue presented for the repeal of the war revenue taxes should not be complicated with other matters. At the same time he gave notice that he should press his own bill at the first opportunity. Mr. Dalzell of Pennsylvania scored a point against the minority by recalling the time under Democratic control of the house when 649 amendments to the Wilson tariff bill had been forced through without being read. When the rule was adopted by a vote of 155 to 120, Mr. Richardson, to emphasize the fact that debate on the bill could accomplish nothing and deliberation upon it would be fruitless, asked unanimous consent that the bill be placed upon its passage. Not an objection was voiced and the vote was taken forthwith. Every vote, 278 in number, was cast in the affirmative, and thus quietly and unanimously came the end of what at one time had promised to be one of the most exciting contests of the session.

CAUCUS TAKES ACTION

Southern Elections Will Be Subject
of Investigation.

Washington, Feb. 18.—The Republican members of the house of representatives held a third caucus last night to consider the question of Southern elections. The attendance was not as numerous as at former gatherings, Speaker Henderson not attending and only 86 Republicans out of a total of 199 being present. This was short of a quorum, but the meeting proceeded with speedy and definite results, a resolution being adopted asking the house committee on rules to report a resolution for a special investigating committee of 11 members to consider questions relating to the disfranchisement of voters.

Senatorial Doings.

Washington, Feb. 18.—After an extended debate the senate yesterday passed the bill establishing a permanent census office. Several other bills of importance on the calendar were passed, among them one extending the charters of national banks. Without notable debate the senate ratified the treaty with Denmark for the cession of the Danish West Indies islands to the United States for a consideration of \$5,000,000. This transaction has been under consideration intermittently since the administration of President Lincoln.

He Hasn't Gone "Way Back."

Columbus, O., Feb. 18.—W. J. Bryan will be in Columbus next Sunday as the guest of Colonel James Kilbourne, who was candidate for governor on the Democratic ticket last fall. While here Mr. Bryan will confer with Col. Kilbourne and other Democratic leaders regarding the political situation in Ohio and plans for future organization and work of the party. On Monday Mr. Bryan will leave for New York, where he is to have a similar conference with Democratic leaders of that state.

Suicide of An Inventor.

Ashtand, Wis., Feb. 18.—Herman C. Fahrigh, inventor of Fahrigh metal, committed suicide here yesterday by shooting. Fahrigh was an expert metal worker and a few years ago perfected the metal which bears his name, after having spent a lifetime in its invention. Ashtand men had recently become interested in the invention and had put the metal upon the market, and it was believed a fortune was in sight for the inventor. No cause for the suicide is known.

Newspapers Tied Up.

Barcelona, Feb. 18.—The strike situation here is becoming more grave. A state of siege has been proclaimed. The printers have tied up all the papers and none of them is appearing.

HAND-SHAKING TOUR

Chairman Goodrich Will Get Around
Over the State.

Indianapolis, Feb. 18.—Chairman Goodrich of the Republican state committee is planning an extensive tour of the state for the purpose of meeting the members of the county committees. He wants to shake hands with as many precinct committeemen as possible between now and the date for the opening of the campaign. He will visit as many county conventions as possible and the precinct committeemen will be notified in advance of his coming so they can be on hand. Goodrich intends to give them good heart-to-heart talks on how the opposition is to be swiped. He is confident that this plan will enable him to get an effective organization much sooner than if he wrote letters or waited until the members of the county committee could visit him at the headquarters here. Goodrich is earning the title of "Deacon" Goodrich among the politicians, as he passed through here yesterday en route to Winchester after spending Sunday in Fowler listening to a Presbyterian minister who may be given a call by his church. But in spite of this mission the new chairman found time to get in a few words with politicians here. He has adopted "gun shoe" methods that are exasperating to the newspaper men, but his associates are confident that he is the right man for the place and that he will soon round out as good an organization as the party has had in Indiana for a number of years.

The Republicans of the Sixth and Tenth districts will hold their congressional conventions Thursday. The former will meet at Rushville and renominate "Jeems" Watson of Rushville by acclamation. The Tenth district convention will be held at Monticello, and Representative Crumpacker will not even have to come home to say thank you, as he has no opposition. Crumpacker, it is said, is more solid with his district than any other congressman from this state. Both Watson and Crumpacker are looked upon as probable candidates for the nomination for governor in 1904.

Attorney General Taylor and Secretary of State Hunt are seeing that the law providing that no company shall use another's name or a name similar to it shall be allowed to incorporate, is enforced. The law was passed to protect established firms from others who wanted to get part of their business by usurping their title. Every few days some concern tries to incorporate under an old name, but they are politely informed by Hunt and Taylor that they must do it under another name entirely.

James Epperson, state mine inspector, says he thinks a majority of the miners in this state are satisfied with the agreement reached at the recent joint conference here. In many parts of the state, he explains, the miners expected an increase, but they are confident that even if they did not get it their representatives did the best they could for them. He is of the opinion that at the state conference at Terre Haute next month that the scale will be ratified without much trouble.

Marion county today received nearly \$65,000 from the estate of the late W. P. Gallup. His heir and administrator, E. P. Gallup, now of Lebanon, N. H., refused eight years ago to pay taxes on the estate, most of which was in personal property. A suit was brought and fought through the U. S. court, finally resulting in a victory for the county and state. The money was paid today. It came at an especially opportune time for the county, which is hard pressed for funds.

Widows and Orphans Caught.

Lincoln, Neb., Feb. 18.—Martin T. Krueger, mayor of Michigan City, Ind., was here last evening on his way to David City, where he will testify in the trial of the Gould Bros., charged with wrecking the Platte Valley bank of Bellwood. Mr. Krueger represents holders of alleged forged paper issued by the bank and sold to Michigan City investors. Many of his clients, he said, are widows and orphans of moderate means, who will be ruined financially if they realize nothing on the paper they hold. The trial of the Goulds is expected to begin some day this week.

River of Molten Glass.

Noblesville, Ind., Feb. 18.—A large tank containing 80 tons of molten glass, burst yesterday at the factory of the Noblesville Bottle company. The accident was caused by a clay block which had been affected by the intense heat and chemicals, giving away. A hot glass set the building on fire and a portion of the structure was destroyed. The loss will aggregate several thousand dollars and is not covered by insurance. The factory will be closed down several weeks before the necessary repairs can be made.

Serious Coasting Accident.

Cleveland, O., Feb. 18.—A party of seven men and women coasting down Main street lost control of their sled and dashed into a stone abutment of the Erie railroad bridge at the bottom of the hill. They all received injuries and Patrick Fallon's skull was fractured. He was taken to a hospital. The physicians say he may die.

A BITTER FIGHT

Defendants In Valparaiso
Murder Trial Make Vigor-
ous Resistance.

THEIR SIDE PRESENTED

Interest In This Sensational Case
Continues Unabated and the Com-
munity Is Much Exercised.

Politics Has Been Injected Into the
Case and Prosecutor Is Be-
tween Fires.

Valparaiso, Ind., Feb. 18.—The Davidson murder trial in the Lake county circuit court yesterday entered upon its second week with the interest unabated. More than two hundred witnesses have been heard. The defense has begun its work and it is evident that the prisoners are determined to make a bitter fight for their lives. They will attempt to produce an alibi and further show that Edgar Davidson was killed by a Pennsylvania railroad train. The state has, however, anticipated this latter movement to some extent by introducing much expert evidence to show that the wounds which caused the young man's death could not have possibly been caused by a locomotive. It is believed that the trial will close by Thursday and go to the jury. Prosecutor Elnkham, whose name was dragged into the case in an unenviable light by Watchman Sprencell, chief witness for the state, who accused the prosecutor practically of subornation of perjury, declines to discuss the affair at present. Another sufferer by the sensational developments of this case is Prosecutor McAleer of Lake county. A week or two ago he had no opposition for renomination; now he has determined opposition and will win in the convention only after a hard fight if at all.

SHE DIDN'T SPEAK

Chief Witness Against Old Man
Dunn Was Silent On Death Bed.

Fort Wayne, Ind., Feb. 18.—Marie Sampleson, one of the witnesses against Charles Dunn, the old man, for the murder of little Alice Cottrill, is dead at the county infirmary, the result of child-birth. She was a domestic in the employ of Dunn at Warren, and attributed her ruin to one of Dunn's employees. Her evidence was damaging to Dunn, and she died without throwing additional light on this foul tragedy, for which Dunn is now suffering life imprisonment. She has one relative living, a sister in Illinois.

Extensive Mine On Fire.

Brazil, Ind., Feb. 18.—The miners employed at the Tennant Coal company's mine, two miles west of here, were forced to quit work on account of the intense heat caused by the coal in the mine being on fire. Efforts have been frequently made to secure a course free from the fire, but the heat soon convinces the workmen that the fire is probably burning under hundreds of acres of ground. The mine will probably be flooded and abandoned.

Young Farmers Held to Answer.

Fort Wayne, Ind., Feb. 18.—Louis Jones, Herbert Moore and Charles Allen, young farmers, were bound over by the court yesterday in \$1,000 each for burglary. It is alleged that the men have been committing wholesale robberies in the northern part of the county, going about with a team and wagon and hauling away hundreds of dollars' worth of goods. Moore broke down after he was taken to jail, and made a confession.

A Hazardous Job.

Frankfort, Ind., Feb. 18.—Joseph Muhaupt of Lafayette was employed as an expert to open the safe of the Mulberry postoffice, which had been partially wrecked by burglars, and while he was drilling a hole he struck unexploded dynamite, which completed the demolition. The force of the explosion hurled Muhaupt some distance away, to his serious injury. Increased damage was done to the building.

Big Strike at South Bend.

South Bend, Ind., Feb. 18.—All the 1,600 employes of the Singer Sewing Machine works have gone out on strike. The strike was started by about 40 shapers quitting work because of the alleged actions of a foreman brought here from New Jersey. Shortly afterward the other employes followed, through sympathy.

Put a Bullet In His Head.

Terre Haute, Ind., Feb. 18.—James Mansfield, aged 47, committed suicide at the home of his half-sister, where he found a revolver and shot himself in the head. He was conscious long enough to say that he did not want to live. He was separated from his wife and three children because of the opium habit.

Precautions Against Violence.

Tipton, Ind., Feb. 18.—Sheriff Schlenberger has returned from Miles City, Mont., with James Higgins, aged 19, one of the young men accused of criminally assaulting Rachel White near Kempton some time ago. Guards were stationed around the jail to prevent attempt of mob violence.

FOURTH DISTRICT CANDIDATE.

The only candidate from the Fourth congressional district who will seek a nomination at the coming state convention is R. A. Brown, clerk of Supreme court, who will ask a renomination. There is no doubt but that the district will stand by him loyally. The other candidates for the same office are E. E. Neal, of Noblesville, W. R. McClelland, of Danville, J. H. Hatfield, of Bluffton, and E. V. Fitzpatrick, of Portland. Neal coming from the Ninth district, the home of two prominent candidates for auditor, is scarcely considered in the race. McClelland is not making an active canvass. Hatfield and Fitzpatrick both being from the Eighth district are thereby handicapped. The only argument used against Mr. Brown is that he is seeking a second term of a four year office, but this argument is not expected to have great weight in the convention since nearly all the candidates for the various offices have in the past been well provided for. Such a rule would bar out Doran and Martin for auditor, Dyer and Millikin for treasurer and Fitzpatrick for Clerk of Supreme Court, since they all have served as public officers as long or longer than Mr. Brown.

We believe the Fourth district is entitled to a representative on the state ticket, and Mr. Brown being abundantly qualified for the office, and a representative party man, we hope to see him successful.

Smoke in the Store.

Last night when Policeman Pruitt was making the round of the stores he discovered that W. L. Johnson's store was filled with smoke. Mr. Johnson was notified and the store was unlocked. It was soon learned that the trouble was with the furnace but the timely discovery of the smoke probably prevented a disastrous loss.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

SHOO FLY CORNER.

Emmett and Handy Johnson made a business trip to Seymour last week. The ice cream supper at the Barkman school house was quite a success. Peter and Matt Maschino went to town Saturday. Frank Rich is hauling logs to Ph. Speckter's mill. There will be five more weeks of school here. Keep your eye on the horse market for it is getting close to crop time when horses can not be bought at any price. Nick Maschino, of Beech Grove, was here last Thursday. Robert Sandhege was at Beech Grove to see W. Barkman Thursday. Thos. Gudgel, of Slate, and Walter Everhart, of Cana, cut wood for Mrs. Gudgel last week.

Something That Will Do You Good.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use even a very doubtful but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden, S. C. Messenger. For sale by C. W. Milhous.

McKinley Fund Reaches \$1,000.

The collection from Indiana churches to the McKinley monument fund reached \$1,000 Monday. The number of churches that have reported is now 374. The collections average \$2.67. The largest single collection received was from the Hebrew temple in Indianapolis, \$47.

When you lack energy, do not relish your food, feel dull and stupid, after eating, all you need is a dose of Chamberlain's Stomach & Liver Tablets. They will make you feel like a new man and give you an appetite like a bear. For sale by C. W. Milhous.

Mr. and Mrs. B. F. McCann were married at Brownstown thirty-four years ago today and the anniversary was celebrated with a sumptuous dinner, of which some of their friends partook with them. Mrs. McCann's maiden name was Miss Hettie Woodmansee.

"I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds and croup I have ever used in my family. I have not words to express my confidence in the remedy."—Mrs. J. A. Moore, North Star, Mich. For sale by C. W. Milhous.

The services at the German M. E. church Sunday were of more than usual interest. Rev. Aura Smith assisted the pastor, Dr. Severinghaus, in the services, preaching at night. There were twelve conversions.

Dress does not make the person. Nor does a clean exterior indicate a clean interior. To be well all organs of the body must work in harmony. Rocky Mountain Tea does this work. Ask your druggist.

Miss Nellie Howard pleasantly entertained a company of friends at her home last evening in honor of Otto Lamm, of Bedford.

Mrs. James M. Hamer continues to improve nicely.

CORTLAND.

Invitations have been received from the Holiness Association of Seymour announcing that Rev. E. A. Ferguson the railroad evangelist, will begin a series of meetings at the City Mission on Feb. 28, continuing ten days.

L. C. Baughman had a valuable horse hurt last week while loose in the lot playing with the other horses, by slipping and falling on a fence post.

Miss Tillie Spreen left Tuesday for West Virginia, where she will work in the office of the Gospel Trumpet.

Cortland was well represented at Ahl's public sale Wednesday. Andrew Downing and wife spent a few days here on their wedding tour last week with the latter's aunt and Mrs. G. A. Phegley.

Rev. M. O. Robbins returned from Brownsville Saturday evening where he left his father very sick.

Elder Harry Jackson delivered a lecture here Saturday night in the Sunday school room. He filled his regular appointment Sunday morning and night. The first service was held in the Sunday-school room on account of shortage of fuel, but at night one of the good brethren furnished the fuel in order to heat the main audience room, which was certainly appreciated by our people.

Wm. Holmes and family of Seymour, visited his daughter, Mrs. J. B. Thompson, Sunday, and attended church here.

An excellent program is being prepared for Friday for the celebration of Washington's birthday by our school teacher at this place and will be given Friday afternoon.

Attendance at the Sunday school 57, collection 25c.

William Ault of near Borchers' church was in this vicinity last week catching skunks and after getting one put the hide in his pocket and came in one of our stores which made a very disagreeable odor.

Several persons have received some very hard falls while walking on the ice concrete walks at the church house which hurt them quite badly for a while.

Some of our young men are contemplating going to Illinois this spring.

Wm. Rhoads, George McNiece and John White, have been putting up a lot of ice averaging ten inches.

Miss Anna Ault, of Spraytown, is staying with her uncle, Samuel Phegley.

Fred Runge, of Surprise, was in this vicinity Wednesday.

While talking to a gentleman from the eastern part of the county last week, he informed us that he could get more fresh news from the REPUBLICAN than any other paper he ever saw.

Miss Gore, of Seymour, and Miss Orrell, of Columbus, spent a little while with the latter's grandma, Mrs. Aaron Pfaffenberger, of this place Saturday evening.

Just after we had gone to press last week we learned of the wedding of Mrs. Nunia Lucas, of this place and John Summitt of Seymour.

Miss Emma Phegley, of Ewing, spent Sunday with her parents Mr. and Mrs. George Phegley, of this place.

Wm. Hodapp received word from his sister in Iowa, last week stating that they had fine weather, plenty of sleighing and that the thermometer had been registering 30 degrees below zero during the late cold spell.

It seems that some people must treat their stock cruel, as they put them in the field and compel them to lay all night in the snow.

Rev. M. O. Robbins went to Reddington to fill his appointment at Ackert's chapel and at Rockford Sunday, but did not preach here on account of Elder Jackson filling the pulpit at the Union church. Brother Robbins will preach here at his regular hour March 2.

WANTED—The address of Storer Ditchley is wanted by his son at Indianapolis. Any one knowing of his whereabouts will please send the information with their address to P. O. box 66, Cortland, Ind.

HAND IN HAND.

Sleeplessness, Nervousness, Indigestion, the Bane of the Present Day. Seymour People Know the Remedy.

There is a condition that a great many people get into these days—not sick abed—able to be around but never feeling well—weak and the least exertion tucks them out—as months go on they become weaker until resistance to disease is practically overcome. It was directly for this class that Dr. A. W. Chase's Nerve Pills were formulated. They provide the lacking element that is wanted to remove the trouble, nerve force.

Mr. J. Blair, of No. 114 North Lynn St., Seymour, Ind., says: "For some time I have been a victim of severe nervousness, sleeplessness and indigestion. I heard Dr. A. W. Chase's Nerve Pills sold spoken of and thought I would try them. I got a box of the pills at A. J. Pellens' drug store and after using one box of the medicine I can say that the results were very satisfactory and I think with further use I would get permanent results. I think these pills grand tonic."

Dr. A. W. Chase's Nerve Pills are sold at 50 c. a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature A. W. Chase, M. D. are on every package.

A. H. Meyers, of White Creek, was here last evening.

For Stomach Troubles.

"I have taken a great many different medicines for stomach trouble and constipation," says Mrs. S. Geiger of Dunkerton, Iowa, "but never had as good results from any as from Chamberlain's Stomach & Liver Tablets." For sale by C. W. Milhous.

WITH ONE VOICE.

Seymour People Who Have Investigated are a United on the Subject.

The voice of the people is heard all over the land. Trumpet notes of truth Bounded from east to west Seymour has joined the throng Many a citizen lifts his voice in praise, Enthusiastic people everywhere, Backs relieved of heavy burdens, Nights of suffering, days of misery, Become nights of rest and days of joy. It's the constant working of Doan's Kidney Pills. Are these reports all true? Here's a Seymour man; ask him his opinion.

Mr. William Zickler, of Poplar street, insurance agent, says: "I can recommend Doan's Kidney Pills, sold at C. W. Milhous' drug store. I suffered from pain over my hips and sometimes in the upper part of my shoulder. A very short course of the treatment with Doan's Kidney Pills banished the pain across my kidneys and up to date there has been no recurrence. I was told by my physician that the trouble was owing to uric acid in my system but since taking Doan's Kidney Pills I think I am about rid of it. They were positive in ridding me of the backache and regulating the action of the kidney secretions."

For sale by all dealers, price 50 cts. Foster-Milburn Co., Buffalo, N. Y. sole agents for the U. S. Remember the Doan's and take no other.

BLANCHLEY'S WARNING.

Tells the People to Beware of the Seventeen-Year Locusts.

State Geologist Blanchley says the pest known as the 17-year locusts will undoubtedly be upon us this year, and he advises people who thought of setting out new orchards this spring to wait until next fall.

Blanchley predicted almost a year ago that the locusts would be here this year. Their stay will be brief, some three or four weeks, but those who own orchards, especially new ones, will have plenty of reason to remember them. Their last visit was early in June, 1885, and they will come about the same time this year. They will be impartial in their attentions, visiting most sections of the state. Another kind, the 13-year brood, visits certain parts of the state.

Young trees especially will suffer from the locusts, as will also young twigs of old trees. The whole tree is not killed, but in the case of a young tree all the twigs may be killed and the tree retarded. It is in depositing its eggs that the locust does its work of destruction. The egg is deposited by means of the ovipositor, a small tube which makes slits in the twigs of the tree. The eggs are deposited neatly in rows. Sometimes thousands of locusts will get on one tree, and as the twig in which the egg is deposited always dies and falls to the ground, great damage can thus be done. After the twig has fallen, the young locust hatches and then burrows into the ground, where it remains 17 years. They have been found as deep as 20 feet below the surface of the ground. This year's crop of locusts will come from eggs deposited 17 years ago.

Blanchley says the only way to guard against the locusts is to build a frame around young trees and cover them with cheesecloth. According to him, locusts have no sting, but have a beak which they can stick into one's flesh, producing a wound similar to that caused by a kissing bug.

The number of locusts is decreasing each successive appearance, due in part to the fact that hogs and poultry, as well as English sparrows, feed on them. The clearing away of trees also is diminishing their number.

CINCINNATI WEEKLY GAZETTE

20 Page Newspaper. 50 Cts. a Year.

THE WEEKLY GAZETTE, with its up-to-date methods and general excellence, stands today as the most reliable and best weekly published in this territory.

It enters the new year in a most promising condition, and with the determination to double its greatly increased business, makes the most costly free offering ever made by a weekly publication.

Commencing December 1901, every subscriber will receive FREE, once each month with his paper, a beautiful and valuable picture for 12 months.

This series is a choice selection of twelve (12) of the best pictures taken from the famous Tennessee Life Studies and from Austen's multipicture reproduction in black and white.

They are not ordinary, cheap pictures, but are copyright reproductions, which The Commercial Tribune Company, at a heavy cost, obtained exclusive control of for this territory and are printed by special contract. Their genuineness is guaranteed. Each is 7x9, mounted on a black velours mat 10x15. One can not be purchased at any art store under \$1.00 one dollar.

A free offer of this value was never before made by a weekly newspaper, and when one stops to consider that he is getting the best and most up-to-date weekly published for only 50 cents a year and in addition is presented with a set of twelve (12) pictures that can not be purchased for \$5.00, he realizes that we are out for new business and intend to get it, even though it is most expensive.

It is not necessary to dwell on its many special features; they are known as its record as the favorite family journal for over one hundred years, is a conclusive testimonial.

KIDNEY TROUBLES.

Mrs. Louise M. Gibson Says That This Fatal Disease is Easily Cured by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I felt very discouraged two years ago, I had suffered so long with kidney troubles and other complications, and had taken so much medicine without relief that I began to think there was no hope for me. Life looked so good to me, but what is life without health? I wanted to be well.

MRS. LOUISE M. GIBSON.

"Lydia E. Pinkham's Vegetable Compound cured me and made me well, and that is why I gladly write you this, and gladly thank you; six bottles was all I took, together with your Pills. My headache and backache and kidney trouble went, never to return; the burning sensation I had left altogether; my general health was so improved I felt as young and light and happy as at twenty."—Mrs. Louise Gibson, 4813 Langley Ave., Chicago, Ill.—\$5000 forfeit if above testimonial is not genuine.

If you feel that there is anything at all unusual or puzzling about your case, or if you wish confidential advice of the most experienced, write to Mrs. Pinkham, Lynn, Mass., and you will be advised free of charge. Lydia E. Pinkham's Vegetable Compound has cured and is curing thousands of cases of female trouble.

CLEARED FOR ACTION

The House Now Ready to Look to Cuba's Relief.

Washington, Feb. 18.—With the passage of the war revenue reduction bill in the house yesterday informal plans are being considered on both sides of the chamber for the consideration of the Cuban reciprocity question now pending before the ways and means committee. Chairman Payne says that no definite plan has yet been matured for taking up the question, either by the Republican members or by the committee as a whole. At the same time there is a pretty general understanding among the Republican members of the committee that they will confer on the subject later in the week.

The Democratic members of the ways and means committee met yesterday afternoon after the passage of the war revenue repeal act to consider plans for dealing with the Cuban reciprocity question when it comes up. No definite line of action was determined upon.

The word "mile" is derived from the Latin "mille," a thousand. A thousand paces of a marching soldier made the old Roman mile.

ANCIENT TORTURE

How it has Been Revived in Modern Times.

An ancient method of poisoning criminals was to force them to swallow large quantities of bull's blood. Bull's blood is really no poison at all. Yet the prisoner usually died in agony. This was caused by the coagulation of hardening of the bull's blood in the stomach. The pressure of this solid mass on the heart, lungs and other vital organs almost always resulted fatally.

That's just like indigestion. If your food doesn't digest it remains in a hard lump in the stomach. Gases are formed, which crowd and sometimes actually displace other organs. Many cases of supposed heart disease are due to indigestion. The pressure upon the lungs interferes with breathing. A disordered stomach affects the whole body.

By the use of such a preparation as Kodol Dyspepsia Cure all this trouble is removed. Before food can be assimilated into the system it must be reduced to proper condition by the digestive fluids. If any of these fluids are lacking, perfect digestion is impossible. Kodol Dyspepsia Cure supplies the missing fluids. Stomach troubles can't be cured by dieting. The system demands both a sufficiency and a variety of food. You can't get well or stay well without it. Kodol Dyspepsia Cure enables the stomach to take care of any kind of good food. It renders dieting unnecessary. It digests what you eat. In this way it rests the stomach. This rest soon restores the stomach to perfect health. Kodol Dyspepsia Cure helps the children too. Weak and sickly little ones thrive on it. It never fails.

"During the last few years my stomach was in such condition that I couldn't retain the food I ate," writes Henry Williams of Booneville, Mo. "Two months ago I commenced taking Kodol Dyspepsia Cure. A few bottles have cured me entirely. I can now eat and enjoy anything I want."

Kodol Dyspepsia Cure
Cures all Stomach Troubles.

Prepared only by E. C. DEWEY & Co., Chicago. The \$1 bottle contains 3 1/2 times the 50c. size.

ONE MINUTE Cough Cure
Cures quickly. That's what it's made for.

A. J. PELLENS, DRUGGIST.

LIVING IN LONDON.

It is Not a Good Place For a Man of Small Income.

An American who in the classical language of his country is at present "located" in London wants to know whether any city in the world is quite so niggardly as our town. He has been going the round of the London restaurants and has encountered in the management of them a spirit which distresses him. "There is, to begin with," he says, "a charge of from two pence to sixpence for guarding your hat and coat in the cloakroom, and a tip in addition is expected. You want to wash your hands—another two pence or another sixpence and another tip. You take up the menu, and behold, there is an intimation that a charge of three pence each person will be made under the guise of 'table money.' The charge varies according to the nature of the place. Three pence is the lowest and sixpence perhaps the average. At a great many restaurants it is 1 shilling and in at least two that I have visited 1s. 6d. The only difference is that in the lower priced restaurants it is called 'table money' and in the higher priced ones placed under the captivating heading of 'cover.' To my mind, an entrance fee frankly demanded at the door would be much less offensive than to find yourself asked at the end of a dinner to pay for the trouble and expense of cleaning up the cutlery you have used."

His conclusion of the whole matter is that "London lives by imposing a fixed tariff on the accessories that in every other city I have ever been to are thrown in gratis," and he thinks that being a gentleman is one of the most expensive professions an Englishman can have. He declares it to be an utter delusion that London is a cheap place to live in. "For the poor man," he says, "the man whose income is less than \$800 a year, there is no city where less can be had in the way of comforts and even the necessities of life. In New York it is only the luxuries that cost. The expenses of everyday living may be as great or as small as one cares to make them. New York, in fact, is laid out for the poor man. From the transportation system to the price of such fundamental charges on the household treasury as coal, ice, fuel, meat, bread, milk and fruit, almost everything conspires to bring him in a good return for a very small outlay. All these things are cheaper in New York than in London."—London Chronicle.

Bills in Congress.

The words "has introduced a bill in congress" applied to a senator or representative, usually sound much larger than their ordinary meaning warrants. In order properly to estimate the value of the introduction of a bill one must remember that of 12,000 or 15,000 measures introduced a few hundred only are passed. As for proposed amendments to the constitution, the infant mortality among them is appalling. Each new congress sees a score or more of proposals for a "sixteenth amendment to the constitution." We shall doubtless some time have such a thing, yet three amendments, all of which were consequences of a great civil war, represent the only changes made in the constitution since the presidency of Thomas Jefferson.—Youth's Companion.

Houses and Superstitions.

"Real estate men are gradually forgetting most of the old time superstitions which used to cause us much trouble," said a dealer the other day. "The number of houses which cannot be rented or sold on account of being haunted or because some terrible crime was committed on the premises is rapidly decreasing. We run across only a few people who balk at living in house No. 13. Even elderly men who have made big fortunes are beginning to believe that there is nothing in the old saying that the aged rich man builds a mansion to die in."—New York Tribune.

The Whip Tree.

In the island of Jamaica grows a tree, with the botanical name Daphne lagetto, from the branches of which native workmen make peculiarly strong and excellent whips, which have the handle and lash all of a piece. The handle consists of a part of the stem retaining the bark. For the lash the stem is deprived of bark and then split into strips, which are woven together in a flexible cord six or seven feet in length. The proper taper is afforded by detaching more and more of the strips as the end of the lash is approached.

FORCEFUL EXPRESSIONS.

The Power of Illustration in the Turn of a Phrase.

James Russell Lowell said, "There's a deal of solid kicking in the meekest looking mule." If the statement had been, "There's a good deal of obstinacy covered by apparent amiability," the remark might have passed without a moment's notice, but attached to such a figure as the poet used it will be difficult for the mind ever to get rid of it.

Mazzini says, "Labor is the divine law of our existence." This is little more than commonplace, but when he added, "Repose is desertion and suicide," the commonplace was transfigured into a memorable illustration.

A French writer said, "The really efficient laborer will be found not to crowd his day with work." That seems to be forgettable. When he adds, "He will saunter to his task surrounded by a wide halo of ease and leisure," the halo serves the purpose of an explanatory illustration.

President Garfield once said, "Nine times out of ten the best thing that can happen to a young man is to be tossed overboard and compelled to sink or swim for himself." The tossing overboard was the illustration. The sagacious president gave it significance and emphasis by personal reference, "In all my acquaintance I never knew a man to be drowned who was worth the saving."

When Lavater said, "Habit is altogether too arbitrary a master for me to submit to," it was the word "master" that constituted the memorable illustration.

Carlyle, a great master of metaphor, said truly: "No man lives without jostling and being jostled. In all ways he has to elbow himself through the world, giving and receiving offense." The doctrine of this sentence might easily have become a mere platitude, but it is fixed upon the memory by jostling and being jostled and the elbowing of oneself through the world. This illustration is the very making of the argument.—Joseph Parker, D. D., in Homiletic Review.

SOME METALS.

Iridium, worth more than \$750 a pound, is the hardest metal known and is used to tip gold pens.

Lithium, worth more than \$1,100 a pound, is used only in medicine, its salts being valuable in rheumatic affections.

Tungsten, worth 90 cents a pound, is largely used in metallurgy and gives to steel qualities similar to those imparted by molybdenum.

Molybdenum, worth \$1.44 a pound, is used in metallurgy. Molybdenum steel possesses the rare quality of preserving its hardness even when heated to redness.

Selenium, which has the curious property of losing its resistance to the electric current under the influence of light, is used in the telegraph and in photography.

Uranium, worth \$86 a pound, is used in the glass and porcelain industries. It has been found that uranium carbide is superior to nickel or tungsten in the manufacture of high grade steel.

Palladium, which has the smallest coefficient of dilatation, is used for the mounting of astronomical instruments. The standard meter of France is made of palladium. The pure metal costs \$4.82 a pound.

Vanadium oxidizes in air with great difficulty, melts at 2,000 degrees and becomes redhot in hydrogen. Neither hydrochloric acid nor nitric acid attacks it. It costs \$592 a pound and is used in coloring glass and in making indelible inks.

Italy's Marriage Brokers.

Marriage brokers are a regular institution in Italy. In Genoa there are several marriage brokers who have pocketbooks filled with the names of the marriageable girls of the different classes, with notes of their figures, personal attractions, fortune and other circumstances. These brokers go about endeavoring to arrange matrimonial alliances in the same offhand mercantile manner which they would bring to bear upon a purely business transaction, and when they succeed they get a commission of 2 or 3 per cent upon the dowry, with such extras of bonuses as may be voluntarily bestowed by the party.

Animals in Turkey.

In Turkey the partridge is detested because once it betrayed the prophet to his enemies, and its legs are red because they were dipped in the blood of Hassan. If a man kills a panther, he is imprisoned for twenty-four hours and then is handsomely rewarded. The crane is respected, and it is a crime to kill it.

The Crocodile.

The crocodile's lower jaw is no socketed in the skull, as is the case with other animals, but the skull is socketed in the jaw, so that the animal can lift the upper part of its head as upon a hinge and so capture whatever prey may be at hand without going to the trouble of getting upon its legs.

What He Wanted to Say.

"Prisoner at the bar," said the judge, "is there anything you wish to say before sentence is passed on you?"

The prisoner looked wistfully toward the door and remarked that he would like to say "Good evening," if it would be agreeable to the company.

Not a Sensible Man.

Daughter—Oh, mamma, I do wish I were pretty!

Mother—You needn't, dear. Sensible men think very little about beauty.

Daughter—But it isn't sensible men I'm thinking about, mamma; it's Charley!
